1l / Item number 035903092 / EAN 4044899359937

A concentrated formula for simultaneous cleaning and care. In a single wipe, dirt, scuff marks, heel marks, rubber marks and even greasy and stubborn stains are effortlessly removed, whilst the material is refreshed at the same time. This ensures that high-quality parquet and wooden floorboards retain their natural appearance for the long term and are protected against premature signs of ageing, such as greying, darkening or fading. Suitable for all oiled, waxed and sealed parquet and wooden floorboards.

- Concentrate
- refreshing
- prevents fading and greying
- for oiled, waxed and sealed floors

Area of application

Care concentrate for parquet and wooden floorboards in living areas, hallways and offices: cleans, conditions, refreshes and protects against greying and fading.

Processing

Pour 50 ml of the cleaner into a bucket containing 10 litres of lukewarm water and mix well. Wipe the floor with a well-wrung-out cloth until it is just damp, then leave to dry. There is no need to wipe it again. Do not walk on the surface whilst it is drying.

Storage

Store the container tightly sealed in a cool place, but protect from frost.
Keep out of the reach of children.

Notes

Parquet subfloors are sensitive to moisture. Therefore, the floor must not be made too wet. Prolonged exposure to moisture can cause the floor to swell and, as a result, warp. You should therefore always mop the floor until it is just damp and avoid leaving puddles.
