®Glutoclean

WPC and BPC cleaners

Technical Data Sheet

1l / Item number 101201205 / EAN 4250295104266

For initial and routine cleaning of WPC (Wood Polymer Composite). Effortlessly removes greasy and oily dirt. Refreshes the natural surface and preserves its natural appearance. The WPC cleaner has an anti-static effect, which reduces dirt build-up and makes routine cleaning easier. Regular use reduces premature signs of ageing.

- Concentrate
- for basic and routine cleaning
- removes greasy and oily dirt

Area of application

Cleaner for garden furniture, patios and balconies: removes grease, bird droppings and grime, cares for surfaces, has an anti-static effect and refreshes.

Processing

Deep cleaning, heavy soiling: Add 200 ml to a 5-litre bucket of warm water and mix well. Apply with a floor mop or damp cloth and leave to work for two to three minutes. Then scrub with a mop and remove any loosened dirt. Then wipe thoroughly with clean water. Do not allow the cleaner to dry; for larger areas, always work in sections.
Routine cleaning: Add 50 ml to a 5-litre bucket of water and mix well. Wipe with a floor mop or squeegee and leave to dry. No need to wipe again.

Storage

Store the container tightly sealed in a cool place, but away from frost. Keep out of the reach of children.

Notes

WPC and BPC are innovative materials that resemble wood and, like wood, undergo a natural ageing process. Treating them with the WPC + BPC impregnation provides additional protection against penetrating dirt.
