®Glutoclean

Awning Cleaner

Technical Data Sheet

750ml / Item number 039402074 / EAN 4044899394020

Automatically and thoroughly removes even stubborn dirt, bird droppings, deposits and similar contaminants. Suitable for all natural and synthetic fabrics – such as cotton, linen, acrylic and the like. Ideal for awnings, parasols, sunroofs, tents, beach chair covers, boat covers, tarpaulins, etc.

- also for parasols, beach chairs and tents
- removes even stubborn dirt
- gentle on colours and materials

Area of application

Textile cleaner for awnings, parasols, tents and tarpaulins: thoroughly and gently removes bird droppings, deposits and stubborn dirt.

Processing

Remove loose dirt with a soft brush. Thoroughly wet the fabric with water, spray on Glutoclean Awning Cleaner or apply it with a sponge or soft brush, and leave it to work for 2–3 minutes. Do not allow the cleaner to dry out. Clean the treated area with a scrubbing brush or a brush and rinse off the loosened dirt with plenty of water.

Storage

Keep the container tightly closed and store in a cool place, away from frost. Keep out of the reach of children.

Notes

Check fabrics for colourfastness before use. To prevent the formation of mildew stains and mould, never close awnings or parasols whilst they are wet. To reduce moisture absorption and the likelihood of soiling, we recommend treating the cleaned surface with Glutoclean awning waterproofing.
