®Glutoclean

Wheel cleaner

Technical Data Sheet

750ml / Item number 048802074 / EAN 4044899488026

Acid-free specialised cleaner, suitable for all painted and anodised steel and light-alloy wheels, including high-gloss and chrome wheels. Cleans quickly and automatically. Even the most stubborn dirt, such as extreme brake dust, oil and rubber residues, as well as all types of road grime, is removed. Performs to the highest standard even at cool temperatures. The special gel formula ensures optimum adhesion to the wheel surface. The visual indicator (purple colour) shows that the cleaning process is underway. Suitable for high-gloss polished alloy wheels (check for compatibility beforehand). Cleans automatically and quickly. Even the most stubborn dirt, such as extreme brake dust, oil and rubber residues, as well as all kinds of road grime, is removed. Delivers top-class performance even at cool temperatures.

- acid-free
- removes stubborn dirt
- for alloy and steel rims, as well as hubcaps
- also suitable for chrome-plated and polished rims

Area of application

Acid-free wheel cleaner; removes brake dust, oil, rubber and road grime automatically, with an indicator showing when it’s working.

Processing

Spray the cold wheel rims evenly and generously with wheel rim cleaner from a short distance, leave it to work for 3–5 minutes, and then rinse thoroughly with a strong jet of water or drive through a car wash. If necessary, you can use a soft sponge or a wheel rim brush to help with the cleaning.

Storage

Store the container tightly sealed in a cool place, but away from frost. Keep out of the reach of children.

Notes

Do not use in direct sunlight or on hot wheel rims, and do not allow the product to dry. Test unprotected, bare or highly polished wheel rims beforehand on an inconspicuous area to check for material compatibility. Protect from frost.
