®Glutoclean

High-pressure cleaner additive

Technical Data Sheet

1l / Item number 038203205 / EAN 4250295101951

For professional and gentle use in all high-pressure washers to enhance the cleaning effect (low-foaming). Effectively dissolves and removes dirt, stubborn encrustations, bird droppings, grease, stains and deposits. For use in all standard high-pressure washers. Enhances the cleaning effect on all water-resistant surfaces such as metal, glass and plastic, stone, ceramics and wood. Suitable for cars, motorhomes, boats, machinery and surfboards. Ideal for patios, pavements, driveways, walls, façades, as well as roofs and balconies. Universally applicable in agriculture and industry.

- Highly concentrated
- Suitable for use in all high-pressure washers
- for cars, homes and gardens, machinery, boats, agriculture and industry

Area of application

Low-foaming concentrate for high-pressure washers. Removes stubborn dirt, encrustations, bird droppings, grease, stains and deposits.

Processing

Follow the equipment manufacturer’s instructions. Depending on the machine, either add the high-pressure cleaner additive to the detergent tank or insert the suction hose into the container. Set the dosing control to ‘min.’ or level 1. Increase the dosage for heavy soiling. For machines without a dosing system, mix 100 ml of concentrate with 10 litres of water.

Storage

Store the container tightly sealed in a cool place, but protect from frost.
Keep out of the reach of children.

Notes

High-gloss surfaces may become matt under certain circumstances. Always test on an inconspicuous area first.
