®Glutoclean

Path and patio cleaner

Technical Data Sheet

1l / Item number 050003074 / EAN 4044899500032

Automatically removes organic dirt and its residues. Prevents re-soiling. For patios, driveways, house façades, pavements, roofs, fences and all outdoor surfaces such as stone, wood, glass, concrete and ceramic surfaces, roof tiles and roofing felt, paving slabs, clinker bricks and paving stones, terracotta and similar materials.

- Concentrate
- for stone, wood, plastic and glass
- automatically removes organic dirt
- prevents re-soiling

Area of application

Automatically removes organic dirt and its residues. Prevents re-soiling.

Processing

The surface to be treated must be dry. Depending on the severity of the soiling, use the product undiluted or diluted with water up to a ratio of 1:20. Apply generously and evenly to the surface. Do not rinse off and leave to work for at least 24 hours. Stains will disappear without any further treatment of the surfaces. Only for stubborn residues, work over the area with a brush or scrubber, or extend the application time. Repeat the application if necessary. Clean tools with water after use.

Storage

Store the container tightly sealed in a cool place, but away from frost.

Notes

During the treatment, temporary colour changes may occur, but these will fade away when exposed to sunlight and the elements.
