®Glutoclean

Teak Cleaner and Degreyser

Technical Data Sheet

750ml / Item number 037202074 / EAN 4044899372028

For refreshing all greyed and faded hardwood surfaces and for removing stubborn dirt, deposits, green growth and other contaminants. For old and new garden furniture made from untreated hardwoods such as teak, bangkirai, iroko, oak, larch, mahogany, black locust, cedar and others. Particularly suitable for rattan furniture.

- to refresh greyed or faded hardwood surfaces
- removes stubborn dirt
- preserves the natural patina or restores the wood’s original colour
- also suitable for rattan furniture

Area of application

Hardwood cleaner for patios, balconies and gardens: removes green deposits and dirt, refreshes greyed wood and restores its natural colour.

Processing

To preserve the patina: Spray a well-moistened sponge or cloth and then wipe the surface with it. Leave it to work for approx. 5–10 minutes and scrub thoroughly with a soft brush, following the grain of the wood. Then rinse well with water and leave to dry.

To restore the wood to its original colour: Spray the cleaner onto the dry wood. Leave it to work for approx. 20 minutes, taking care not to let it dry out. Then scrub thoroughly along the grain of the wood using a brush that is not too stiff. Rinse thoroughly with plenty of water and leave to dry.

Storage

Keep the container tightly closed and store in a cool place, away from frost. Keep out of the reach of children.
