Teak and Hardwood Oil

Technical Data Sheet

1l / Item number 037103074 / EAN 4044899371038

For the care and protection of all high-quality hardwood surfaces. Oiled and untreated woods remain hard-wearing following treatment. Long-lasting protection against drying out, the elements and fungal attack. The original colour is retained with regular application. Suitable for all garden furniture, sets, pergolas, carports, boat decks, pavilions and similar structures made from teak, eucalyptus, black locust, bankirai, mahogany, rosewood, plantation teak, iroko and other hardwoods.

- also suitable for eucalyptus, bangkirai and black locust
- long-lasting protection
- very economical and waterproof
- quick-drying
- 1 litre covers 10–15 m²

Area of application

Teak and hardwood oil for patios, balconies and gardens: nourishes, protects and preserves high-quality woods against drying out, the elements and fungal attack.

Processing

The surface must be thoroughly cleaned before use and should be dry. Apply the oil in a thin, even layer using a brush, roller or clean, dry cloth, working in the direction of the grain. After 10 minutes, wipe off any excess oil and rub the surface dry.

Storage

Keep the container tightly closed and store in a cool place, away from frost. Keep out of the reach of children.

Notes

Clean surfaces thoroughly beforehand using Glutoclean Teak Cleaner and Degreyser. Do not apply the oil over dirt or grease deposits, as this will cause the wood to darken and, over time, turn black.
Cloths soaked in teak and hardwood oil are prone to spontaneous combustion. Therefore, always rinse cloths thoroughly with water.
