®Glutoclean

Carpet and Upholstery Cleaner

Technical Data Sheet

500ml / Item number 039101092 / EAN 4044899391913
750ml / Item number 039102092 / EAN 4044899391920

This all-purpose cleaner penetrates deep into the fibres without damaging the underlying material, easily removing dirt and stain-causing substances. It also eliminates annoying and unpleasant odours, leaving carpets and upholstered furniture feeling fresh.

- Also for textile and fabric upholstery in car interiors

Area of application

Carpets and carpet coverings made from synthetic fibres, upholstered furniture, colourfast textile coverings and carpet runners, textile linings in car interiors, etc.

Processing

First, mop up any spilled liquid with an absorbent cloth, then vacuum up any dirt particles on the floor. Spray the cleaner onto the soiled area, leave it to work for 2–3 minutes, then remove the loosened dirt with a clean cloth or absorbent paper. Then rinse with clean water and dry. For heavy soiling, use a soft brush. Finally (if it is a carpet), brush in the direction of the pile. Do not walk on or sit on the cleaned surface whilst it is drying. Once dry, give it a thorough hoover.

Storage

Shelf life: at least 60 months from the date of manufacture

Notes

Always test the base material for colourfastness beforehand (on an inconspicuous area). Where possible, clean up stains immediately, before they dry.

Keep out of the reach of children.
