Sticker remover

Technical Data Sheet

500ml / Item number 037002074 / EAN 4044899370024
500ml / Item number 037002092 / EAN 4044899370925

A highly effective combination of active ingredients for the gentle and complete removal of stickers, labels and stubborn adhesive residues. Quickly and reliably dissolves even firmly adhered residues without damaging surfaces – ideal for the home, workshop and office.

- extra strong
- Residue-free removal of labels and adhesives
- also for removing ink, oil, grease and soot

Area of application

Label remover for the home, kitchen, workshop and office: quickly removes stickers, adhesive residue, ink, oil, tar and soot without leaving any residue.

Processing

Soak a dry cloth in sticker remover and apply it to the sticker. Leave it to soak in briefly, then start peeling off the sticker from one corner. Next, rub off any remaining remover thoroughly and wipe the area clean with plenty of water. For plastic labels, remove or scratch the top layer mechanically before use so that the remover can penetrate.
To treat stains, use a soaked cloth and always rub the stain away. Then blot up any residue with an absorbent cloth.

Storage

Keep the container tightly closed and store in a cool place, away from frost. Keep out of the reach of children.

Notes

Always test for surface compatibility on an inconspicuous area before use. Not suitable for certain plastics, such as Plexiglas (acrylic glass). When using on painted or delicate surfaces, dilute the product only 1:1 with washing-up liquid.
