®Glutoclean

Urine and limescale remover

Technical Data Sheet

1l / Item number 037603074 / EAN 4044899376033
1l / Item number 037603092 / EAN 4044899376934

Automatically removes urine scale, limescale, soap scum, rust stains and other stubborn dirt and deposits in sanitary areas. Suitable for all acid-resistant surfaces of ceramic sanitary fittings, such as toilets, urinals, bidets and drainage systems, as well as shower trays and baths.

- extra strong
- removes encrustations and heavy soiling
- for toilets, urinals and bidets

Area of application

Automatically removes urine scale, limescale, soap scum, rust stains and other stubborn dirt and deposits in the bathroom.

Processing

Pour approx. 150 ml undiluted into the bowl and spread evenly with a brush. Depending on the degree of soiling, leave to work for a longer period (overnight if necessary). Then scrub with a brush and rinse thoroughly with plenty of water. For particularly stubborn stains, it may be necessary to repeat the cleaning process. In very severe cases, the water in the toilet cistern should be drained to allow the product to be used in a more concentrated form.

Storage

Keep the container tightly closed and store in a cool place, away from frost. Keep out of the reach of children.

Notes

Do not use on acid-sensitive surfaces, chrome or enamel. Protect surfaces made of calcareous natural or artificial stone, such as marble, terrazzo, travertine and Solnhofen, from splashes and, if necessary, cover them beforehand.
