Pipe-Free Granules

Technical Data Sheet

600g / Item number 037802074 / EAN 4044899378020
600g / Item number 037802092 / EAN 4044899378129

For all drainage and pipework systems in the kitchen and bathroom – e.g. washbasins, sinks, shower trays and toilets. Works automatically and quickly breaks down the cause of blockages, such as hair, food and soap residues, cotton wool, and oil and grease residues. Regular use prevents further blockages and the build-up of unpleasant odours. The heat generated can even de-ice frozen drains.

- Active granules
- automatically and thoroughly clears stubborn blockages
- for the kitchen, bathroom and toilet
- highly effective

Area of application

Drain cleaner for the kitchen, bathroom and home: dissolves hair, grease and soap scum, clears blockages and unpleasant odours, and quickly thaws frozen drains.

Processing

If the drain is blocked, remove the standing water, pour half a capful of granules into the drain and add a cup of cold water (Caution! Risk of splashing). After leaving it to work for approx. 30 minutes, rinse thoroughly with cold water. For very stubborn blockages, repeat the cleaning process if necessary without increasing the dosage. To prevent odours, pour ¼ capful of Rohr Frei granules down the drain once a week and follow with a cup of cold water.

Storage

Store the container tightly sealed in a cool place, but away from frost.

Notes

The product reacts violently with water, generating heat. Never allow water to enter the packaging. Overuse may lead to overheating and, consequently, to the deformation of plastic pipes or to hardening. Do not use aluminium containers. Not suitable for use with zinc pipes. Seal the container tightly after use.
