®Glutoclean

Metal and Zinc Cleaner MZK

Technical Data Sheet

1l / Item number 040103074 / EAN 4044899401247

Glutoclean Metal and Zinc Cleaner powerfully removes grease, oil, soot and similar contaminants from metal surfaces, ensuring clean, adhesive-compatible substrates. Ideal for preparing galvanised surfaces for subsequent coatings. Suitable for iron, zinc, aluminium, sheet metal and painted metal surfaces in the home, garden, trades and industry.

- for degreasing and surface preparation prior to painting
- for ferrous and non-ferrous metals

Area of application

Glutoclean Metal and Zinc Cleaner removes grease, oil and soot and provides the ideal preparation for metal surfaces.

Processing

Do not use on hot surfaces. Carefully cover surrounding areas – such as carpets, furniture and the like – before use. Shake the bottle well. Apply a generous amount of the cleaner to the metal surface using a cloth or sponge and leave it to work for a short time
. Then clean the surface thoroughly, rinse with plenty of clean water and dry with a clean cloth.

Notes

Remove any accidental splashes immediately with a damp sponge. High-gloss surfaces may become matt under certain circumstances. Always test the surface’s resistance in an inconspicuous area before use
