®Glutoclean

Chlorine-free mould remover

Technical Data Sheet

BAuA-Reg.-Nr.: (D): N-114431

750 ml / Item number 038602074 / EAN 4044899386025
750 ml / Item number 038602092 / EAN

Effortlessly removes mould, bacteria and mildew stains. Highly effective thanks to active oxygen. Chlorine-free, disinfects and is odourless. Suitable for bedrooms and children’s rooms, as well as all other living areas, kitchens, larders, cupboards and fridges. For tackling mould on wallpaper, plaster, brickwork, stone, ceramics, plastic, leather and textiles. Suitable for all acid-resistant surfaces.

- with active oxygen
- odourless
- ideal for living rooms, bedrooms and children’s bedrooms
- Gel formula for prolonged action

Area of application

Effortlessly removes mould, bacteria and mildew stains. Highly effective thanks to active oxygen. Is chlorine-free, disinfects and is odourless.

Processing

To prevent mould spores from spreading throughout the room, do not brush or otherwise pre-treat the affected areas. Spray the affected area carefully and thoroughly from a distance of 15–20 cm until a film forms. Then, depending on the severity of the infestation, leave it to work for approx. 30–60 minutes, or
longer if necessary, or, if possible, leave it overnight. Use a soft brush or sponge to remove the loosened residue whilst damp, and wipe thoroughly with a damp cloth or sponge.

Storage

Keep the container tightly closed and store in a cool, dark place. Do not allow the product to enter the sewerage system or watercourses.

Notes

Always test for compatibility with the surface before use. Do not use on acid-sensitive materials such as marble and calcareous natural stones. Do not spray on plants or metals. If necessary, rinse off immediately with plenty of water.
