®Glutoclean

Acid-based tile and stone cleaner

Technical Data Sheet

1l / Item number 035203074 / EAN 4044899352037

For the powerful yet gentle removal of stubborn dirt, limescale, urine scale, water scale, light cement residue and rust from acid-resistant surfaces. For all acid-resistant surfaces, both indoors and outdoors. Suitable for tiles, split-face slabs, ceramic floor tiles, porcelain stoneware and acid-resistant natural stones (such as various types of granite, slate, quartzite and basalt), chrome, stainless steel and glass. Suitable for use throughout all sanitary and wet areas, in the kitchen, swimming pool, on patios and balconies.

- Concentrate
- powerful and thorough
- for acid-resistant surfaces, both indoors and outdoors
- ideal for cleaning patios
- also suitable for porcelain stoneware, split-face and ceramic slabs

Area of application

Specialist cleaner for bathrooms, toilets, basements and outdoor areas: effectively removes limescale, urine stains, rust and light cement residue from acid-resistant surfaces.

Processing

Depending on the degree of soiling, apply the cleaner undiluted or diluted up to a ratio of 1:10 to the pre-wetted surface. Spread it using a scrubbing brush or sponge and leave it to work for a short while, taking care to prevent it from drying out. Scrub off the loosened dirt residues with a scrubbing brush and wipe them up with a sponge or cloth. Rinse thoroughly with plenty of water.

Storage

Keep the container tightly closed and store in a cool place, away from frost. Keep out of the reach of children.

Notes

Always check for surface compatibility before use. Ensure the surface is thoroughly dampened before treatment, particularly in the joint areas. Protect adjacent surfaces and wipe up any splashes immediately. Calcareous natural stones such as marble, shell limestone, Jura, Solnhofen and travertine are sensitive to acid. Use of this product may cause irreversible damage. Exercise caution with certain types of granite
(e.g. Kashmir White, various Padang varieties or Crystal Black). Always carry out a test beforehand.
