Tiles and Porcelain Stoneware: Cleaners and Care Products

Technical Data Sheet

1l / Item number 035103074 / EAN 4044899351030

For more effective loosening and removal of stubborn dirt, oil and grease films, as well as rubber and shoe marks. Specially formulated ingredients ensure proper care, enhance the colour of the material and also minimise the build-up of new dirt. For indoor and outdoor use on wall and floor surfaces made of polished, honed, rough, unglazed, high-gloss and matt porcelain stoneware. Also suitable for glazed tiles and glossy stone floors.

- Concentrate
- for polished and matt floors
- for regular, hassle-free routine cleaning
- also suitable for glazed tiles

Area of application

Maintenance cleaner for living areas, the kitchen, hallways and offices: removes oil, grease, rubber residue and stubborn dirt, maintains surfaces and helps prevent re-soiling.

Processing

Add 50 ml of porcelain tile cleaner to a bucket containing 10 litres of warm water and mix thoroughly. Apply the cleaning solution to the surface using a standard floor mop or cloth and mop as usual. Allow the cleaned surface to dry; do not rinse with clean water. Depending on the level of soiling, apply the cleaner undiluted,
leave it to work for a short while and treat the area with a scrubbing brush or brush. Then rinse with clean water.

Storage

Store the container tightly sealed in a cool place, but away from frost. Keep out of the reach of children.

Notes

This is a highly effective product; therefore, on highly polished surfaces, please test for compatibility in an inconspicuous area before use. To protect delicate porcelain stoneware surfaces from new greasy and oily stains, we recommend treating the surface with Glutoclean Porcelain Stoneware Impregnation.
