

® **Glutoclean**

Bath and Sanitary Power Cleaner **Bad- und Sanitär Kraftreiniger**

Description

Gel-like cleaning agent – adheres better and is more efficient. Against lime deposits. Hygienic cleanliness and brilliant shine.

Action

Ready-to-use special cleaning agent for effective and fast removal of soap and dirt residues, lime deposits and rust. Inhibits infestation by harmful germs and bacteria and brings about brilliant shine through hygienic cleanliness. Extended application time on the surface and better cleaning result thanks to the gel-like structure of the power cleaner.

Scope of application

For cleaning all acid-resistant surfaces in sanitary and wet areas. For wall and floor tiles, ceramic coverings, basins and toilet bowls, whirlpool tubs and shower trays, shower enclosures and acid-resistant plastic surfaces. Also suitable for removing limescale on fittings and shower heads.

Application

Spray the surfaces and leave the cleaning agent to soak for 1-2 minutes. Rinse thoroughly with water afterwards. Extend the soaking time for stubborn dirt, treat the surfaces with sponge subsequently or brush and also rinse with water.

Please note

Always test for surface compatibility on an inconspicuous area. Pre-wet ceramic coverings and cemented joints thoroughly. Do not apply on surfaces which are sensitive to acids. In particular, not on chalky natural stones of marble, shell limestone, terrazzo, travertine, Jura Marble or slabs from Solnhofen. Leave the agent to soak only shortly in the case of chrome fittings and enamel surfaces.

Storage:

Store well sealed in a cool and dry place.

Technical data

- Density: 1.05 g/ml
- pH value: 1-2
- Appearance: liquid
- Odour: pleasant
