

Porcelain Stoneware Cleaner and Care Feinsteinzeug Reiniger und Pflege

Description

Cleaning agent for polished and matte floors. For regular, convenient maintenance cleaning. Also for glazed tiles.

Action

For better partial dissolving and removing stubborn contamination, oil and grease films as well as rubber and shoe abrasion. Carefully balanced ingredients ensure care, optimise material colour and, additionally, minimise resoiling.

Scope of application

For wall and floor areas of polished, ground, rough, unglazed, high-gloss finished and matte fine stoneware in indoor and outdoor areas. Can also be used for glazed tiles and shiny stone floors.

Application

Put 50 ml of Fine Stoneware Cleaner into a bucket with 10 l warm water and stir well. Apply the washing water onto the surface using a commercially available floor wiper or cloth and mop up in the usual manner. Let the cleaned surface dry and do not wipe off with clear water.

Apply undiluted as well, depending on the degree of contamination, leave to soak for a short time and treat with a scrubbing brush or brush. Wipe off with clear water afterwards.

Please note

Highly effective product, therefore, always subject high-gloss polished surfaces to tests for surface compatibility on an inconspicuous area.

We recommend treatment with Glutoclean Fine Stoneware Impregnation to protect sensitive fine stoneware surfaces against greasy and oily contamination.

Technical data

- Density: 1.01 g/ml
- pH value: 10-10.5
- Appearance: clear liquid
- Odour: fresh

Safety notes

- Keep out of the reach of children.
