## Parquet Floor Cleaner and Care Parkettboden Reiniger und Pflege

### Description

For oiled, waxed and sealed floors. Prevents fading and greying. Cleans and cares as you wipe.

### Action

Concentrate for simultaneous cleaning and care. Contamination, footmarks, heel marks and even greasy and tightly adherent contaminations can be readily removed and the material freshened up at the same time in one wiping action.

This way, high-quality parquet and wood floorings will remain lastingly natural and are protected against premature signs of ageing such as greying, darkening or fading. Does not make the floors slippery.

### Scope of application

For all oiled, waxed and sealed parquet and wood floorings.

### Application

Pour 50 ml of the cleaner into a bucket with 10 l lukewarm water and stir well. Wipe the floor slightly damp using a wrung out wiping cloth and leave to dry. Wiping off is not necessary. Do not walk on the surface during the surface drying process.

### Please note

Parquet foundations are susceptible to moisture. The floor should therefore not be moistened too much. Extended exposure to moisture can result in swelling thus leading to bulging. Hence, always wipe only slightly damp and avoid ponding.

### Storage :

Store well sealed in a cool and dry place.

### Technical data

- Density: 1.0 g/ml
- pH value: 7.0-8.0
- Appearance: liquid
- Odour: pleasant
