

® *Glutoclean*

Pathway and Patio Cleaner

Properties:

- concentrate
- for stone, wood, plastics and glass
- automatically removes organic soiling
- prevents renewed soiling

Action:

Automatically removes organic soiling and associated residue. Prevents renewed soiling.

Areas of application:

For patios, terraces, driveways, pathways, building facades, roofs, fences and all outdoor surfaces, e.g. stone, wood, glass, concrete and ceramic surfaces, clay roof tiles and roofing felt, paving flags, clay and other pavers, terracotta and the like.

Application:

Surface to be treated shall be dry. Depending on degree of soiling, apply in undiluted form or diluted up to 1:20 with water. Pour uniformly and generously over surface. Do not rinse and allow to work for at least 24 hours. Soiling will disappear without any further treatment of surfaces. Only in case of tough residue, additionally treat with brush or scrubber, or allow to work for longer period. If necessary, repeat application. Wash tools with water after use.

Note:

When left to work, cleaner may bring about short-term discoloration, which will, however, disappear under exposure to sun and weather.

Technical data:

Constituents: Non-ionic surfactants, cationic surfactants
Density: Approx. 1 g/ml
pH value: Approx. 7
Appearance: Clear liquid
Odour: Noticeable

Storage:

Store in cool, though frost-free environment in properly sealed containers.

Medical emergency number:

+49 (0) 551 / 1 92 40

Please consult safety data sheet for safety-relevant data. Up-to-date safety data sheets are available from our website at www.glutoclean.de or from sds@glutolin.de.
