

® **Glutoclean**

Mobile Home, Caravan and Boat Deep Cleaner

Properties:

- concentrate
- for up to 50 ltr
- for all coated and plastics surfaces
- for streak-free glossy appearance
- removes tough soiling, e.g. grease, oil, rain streaks and incrustations

Action:

Removes tough, older soiling and road dirt, e.g. black rain streaks on coated and GRP surfaces, polish residue, roof soiling and weather-induced incrustations. Also removes insect, oil and diesel residue. Creates streak-free glossy appearance and prevents renewed soiling.

Areas of application:

For all coated and plastics surfaces on caravans, mobile homes, campers, boats etc. Particularly suitable for coarse-textured surfaces, e.g. chequerplate, hammer coat finishes and other textured surfaces, as well as GRP, other plastics and coated metals.

Application:

Add 100 ml to 5 ltr water and mix well. Apply uniformly with sponge or brush, allow to work for short time and work over again thoroughly. Then wash down with fresh water and dry with leather. For heavily soiled areas, use product in more concentrated or, if necessary, undiluted form. Glossy appearance comes automatically.

Note:

For tough insect residue, apply product to kitchen paper or absorbent cloth and place this over residue. Allow to work for 5 – 10 minutes, then remove dissolved dirt. Not suitable for Plexiglas or acrylic glass.

Technical data:

Constituents: non-ionic surfactants, phosphates, phosphonates, fragrances
Density: approx. 1.01 g/ml
pH value: 10 – 11
Appearance: clear liquid
Odour: pleasant

Storage:

Store in cool, though frost-free environment in properly sealed containers.

Medical emergency number:

+49 (0) 551 / 1 92 40
